

Section Internationale

- The *Section Internationale La Celle St Cloud- Noisy le Roi (the Section)* offers a bilingual education from Maternelle to Lycee (5-18 years of age). The *Section*, established more than 10 years ago, is managed by a parent's association (APESEB) which allows us to maintain high standards whilst keeping fees low. The *Section* is recognised by the French Ministry of Education and follows the national curriculum for English language and literature and History/Geography.
- Younger children can attend the *Section's* primary classes in La Celle St Cloud, where they either study literacy, science and geography in English within their French timetable or attend classes on Wednesdays.
- At College level, pupils study English literature and language as well as history and geography from 6ème to 3ème in either La Celle St Cloud or Noisy le Roi. Pupils begin studying for their English Literature IGCSE in 3ème
- At the Lycée Corneille, La Celle St Cloud, pupils complete the English Literature IGCSE programme in Seconde and then go on to take their OIB (Baccalauréat Option Internationale) in Terminale. Lycée Corneille follows the British OIB programme.
- All our teachers are native English speakers with teaching qualifications from their native English-speaking countries (UK, Ireland, USA, Canada, New Zealand).
- Class sizes allow a more personalised teaching and pupils work in a positive yet challenging environment.
- La Celle Saint Cloud and Noisy Le Roi are family-oriented, residential towns in the west of Paris with train access to La Défense (15 minutes) and St Lazare (30 minutes) and other public transport links. Both cities offer a good quality of life for families.
- The *Section* offers support to families in financial need.
